

Overview:

At this continuing education conference, highly regarded podiatric and vascular specialists will discuss issues specific to podiatric patients. By design, this conference will provide podiatrists with the newest information on select topics such as limb salvage, trauma and practice management. Also included are an Assistants General Course and Radiology Technician Certification.

Hotel Information:

Westin Park Central
12720 Merit Drive
Dallas, TX 75251

Rate: \$109 single/double

Room Block Cut Off:
December 29, 2009

For Hotel Reservations:

Call 972-385-3000 or book online at <http://www.starwoodmeeting.com/Book/texaspodiatric>

Parking Information: \$5 in garage,
\$9 valet, complimentary surface lot

Program Sponsors:

Advanced BioHealing
Bako Pathology
Legally Mine

Platinum Corporate Partners:

Eppointments Plus
PICA

Gold Corporate Partner:

Syntes

Silver Corporate Partner:

Wright Medical

Cancellation Policy:

Full refund minus 10% service charge for cancellation up to 4 days prior to event. No refund or credit for cancellations within 4 days of the conference and for no shows. For Radiology Certification, full refund if study guide is returned to TPMA headquarters; refund minus \$30 otherwise.

TPMA is approved by the Council on Podiatric Medical Education as a sponsor of continuing education in podiatric medicine. This conference is intended for licensed podiatrist and their assistants. Program, schedule and CE contact hours are subject to change without notice. Speakers are required to disclose significant financial relationships with any and all commercial products discussed during the presentation per CPME 720 guidelines. Speakers and sponsors are required to provide disclosure and written agreements to TPMA per the CPME 720 guidelines.

Speakers:

David Armstrong, DPM, PhD
Professor of Surgery and Director, Southern Arizona Limb Salvage Alliance
University of Arizona College of Medicine
Tucson, AZ

Donald Blum, DPM, JD
Southwest Podiatry Associates
Dallas, TX

Zac Childress
Darwin Tech
Oxford, MI

Eugene Goldman, DPM
Private Practice
Montgomery, AL

John Guiliiana, DPM, MS
Foot Care Associates
Hacketstown, NJ

Rem Jackson
Top Practices, LLC
Lititz, PA

Clark Larsen, DPM
Private Practice
Murray, UT

Lawrence Lavery, DPM, MPH
Professor of Surgery
Texas A&M University College of Medicine
University Medical Center
Round Rock, TX

Dan McNeff
Legally Mine
Provo, UT

Raha Mobarak, DPM
Private Practice
Las Cruces, NM

Reza Mobarak, DPM
Southwest Foot & Ankle Center
Plano, TX

Stephen Offut, DPM
Richmond Foot & Ankle
Richmond, IN

Hal Ornstein, DPM
Affiliated Foot & Ankle Center, LLP
Howell, NJ

Lee Rogers, DPM
Director, Amputations Prevention Center
Broadlawn Medical Center
Des Moines, IA

Boulos Toursarkissian, MD
Associate Professor & Chief
Department of Surgery
Vascular Surgery Division
University of Texas Health Science Center
San Antonio, TX

Jeremy Wood, DPM
Eastern Podiatry
Las Vegas, NV

Texas Podiatric Medical Association
918 Congress Ave., Suite 200
Austin, TX 78745

The Texas Podiatric Medical Association

Dallas County

January 22-24, 2010

Westin Park Central Hotel

Winter Conference

Program Chair: Reza Mobarak, DPM,
Southwest Foot & Ankle Center, Plano, TX

CE Chair: Damien Dauphinee, DPM, FACFAS, CWS
Medical Director, Center for Wound Healing & Hyperbaric
Medicine, North Texas Hospital, Dallas, TX

14 CE Contact Hours

Saturday, January 23, 2010
8.5 CE Contact Hours

7:30am-8:00am

Registration Opens
 Coffee In Exhibit Hall

8:00am-9:00am

Legally Mine Non-CE Workshop: Understanding Legal Tools: The Key to Asset Protection & Tax Reduction
Dan McNeff

Description: During difficult financial times it is particularly important that you take measures to protect your home, business and savings from those who use legal means to attack. Incorporating is not a real answer for asset protection, but it can help you with reduction of your income taxes. To learn what tools really will protect your assets and how to lower your tax bills this is the class to attend.

9:00am-9:30am

The Use of Hyperbaric Oxygen in Diabetic Wound Healing
Reza Mobarak, DPM

Objective: To understand hyperbaric oxygen and how it will treat diabetic wounds.

9:30am-10:00am

Natural History of PAD. When is Intervention Really Needed?
Boulos Toursarkissian, MD

Objective: Describe the natural history of peripheral arterial disease and recognize indications for revascularization.

10:00am-10:30am

Coffee Break In Exhibit Hall

10:30am-11:30am

Biomechanical Implications of Partial Pedal Amputations
Stephen Offut, DPM

Objectives: 1) Attendee should be able to recognize the appropriate indications for partial pedal amputations while gaining an appreciation for the biomechanical effect that partial pedal amputations have on the foot. 2) Attendee will become familiar with the surgical and non-surgical methods to deal with these altered biomechanics.

11:30am-12:00pm

Keynote Speaker: Endovascular Treatment for Infrainguinal Arterial Disease. Has the Pendulum Swung Too Far?
Boulos Toursarkissian, MD

Objective: Identify the limitations of endovascular interventions for peripheral arterial disease and compare to open surgical revascularization.

12:00pm-1:00pm

Lunch Break In Exhibit Hall

1:00pm-2:00pm

Surgical Approach to Diabetic Ulcers
Jeremy Wood, DPM

Objective: Demonstrate the application and efficiency of metatarsal osteotomies in the healing of forefoot ulcers.

2:00pm-3:00pm

Track 1 Evidence Based Strategies for Limb Salvage
Lawrence Lavery, DPM, MPH

Objectives: 1) To discuss the innovations in wound therapy. 2) To discuss evidence based wound treatment with electrical stimulation, bioengineered tissue, negative pressure wound therapy, larval therapy and off-loading.

Track 2 Rearfoot and Ankle Trauma: Methods of Fixation with External Fixation
Raha Mobarak, DPM

Objectives: Through case studies attendee's will become knowledgeable about 1) Talar and Ankle Pilon fractures and methods of fixation with use of an external ring fixator, 2) Calcaneal fractures and the methods of fixation with use of external monorail fixator.

3:00pm-3:30pm

Break in Exhibit Hall

3:30pm-4:30pm

Track 1 Diabetic Foot: The Global State of Play
 **Sponsored by Advanced BioHealing
David Armstrong, DPM, PhD

Objectives: 1) Identify risk factors for ulceration and amputation. 2) Understand the impact of diabetes and diabetic foot complications on the health care system.

Track 2 Current Treatments of LisFranc's Injury
Clark Larsen, DPM

Objectives: A review of the past and present treatment of LisFranc fractures and dislocations with new fixation techniques.

4:30pm-5:00pm

Track 1 Management of Diabetic Foot Infections in the Era of MRSA
Lee Rogers, DPM

Objectives: The audience will understand the bacteriology of most common diabetic foot infections (DFI). There will be a presentation of the Infectious Disease Society of America's classification of DFI's, and based on this classification, the audience will be able to choose an appropriate empiric antibiotic.

4:30pm-5:30pm

Track 2 Risk Factors for Complications in Diabetic Ankle Fractures
Lawrence Lavery, DPM, MPH

Objectives: 1) To discuss the incidence of complications after ankle fracture in persons with diabetes. 2) To discuss risk factors for non-unions. 3) To discuss cellular defects in diabetic fracture healing.

5:00pm-6:30pm

Track 1 The State of the Art Update on Bioengineered Dermal Tissue Replacement Technology
Eugene Goldman, DPM

Objectives: 1) To discuss the indications for bioengineered dermal tissue replacement in order to understand the contraindications to the use of bioengineered dermal tissue replacement. 2) To learn how to distinguish alternatives to autografts.

5:30pm-6:30pm

Track 2 Tendon Trauma and Care
Jeremy Wood, DPM

Objectives: Overview of tendon repair techniques along with the advantages and disadvantages of the different techniques.

6:30pm-7:30pm

Reception in Exhibit Hall
 *Sponsored by Bako Pathology

Sunday, January 24, 2010
5.5 CE Contact Hours

7:00am-7:30am

Registration Opens

7:30am-8:00am

Change Your Thinking...Change Your Patient Outcomes
John Guillana, DPM, MS

Objective: An insightful look on how to change your practice paradigms that will result in higher patient compliance and fewer complications.

8:00am-9:00am

Meet Mrs. Smith - Maximizing Your Patient Outcomes to Enhance Patient Satisfaction
John Guillana, DPM, MS and Ben Weaver, DPM

Objectives: 1) To help the physician better understand and improve the patient-provider relationship as it pertains to communication skills, appearance, etc. 2) Exploring the importance of crafting and implementing practice protocols into a medical practice, such as heel pain, wound care and other dermatological conditions.

9:00am-9:15am

The Role of EHR in Patient Care
Zac Childress

Objective: Learn the latest on compliance with EHR adoption and the positive impact EHR has on patient care, compliance and clinical outcomes.

9:15am-10:00am

The Comprehensive Approach to Podiatric Medicine: Are You Delivering Quality Care?
John Guillana, DPM, MS

Objective: Practicing good medicine involves collaboration and measurement of outcomes. Learn how your practice can achieve clinical excellence by monitoring, measuring and analyzing patient treatments, procedures and outcomes.

10:00am-10:15am

Break

10:15am-11:15am

Instituting Effective Patient Communication to Improve Clinical Outcomes
Rem Jackson

Objective: Learn how developing protocols for effective patient communication can improve clinical outcomes and patient compliance. Patient education strategies in-office, as well as pre and post visits will be explored. High impact communication techniques will be shared that improve clinical compliance and outcomes.

11:15am-12:15pm

The Four Pillars of Success
John Guillana, DPM, MS and Hal Ornstein, DPM

Objective: Success in patient care is NOT a status..it's a process. In this program you will learn about the four pillars required to support successful patient presentations to better explain diagnoses, treatment options and plans resulting in better patient compliance and outcomes.

12:15pm-1:15pm

Medical Ethics for Podiatric Practices
Donald Blum, DPM, JD

Objective: To better understand the ethical treatment of Podiatric patients and compliance with the APMA code of ethics.

Assistant Program
Saturday, January 23, 2010

7:30am - 9:00am

Registration & Coffee

8:00am - 7:00pm

Radiology Certification
 *10 hours pre-study required
Joe Martin, DPM

Assistant General Track

9:00am - 9:30am

Welcome and Meeting Agenda

9:30am - 10:30am

Developing Treatment Algorithms

10:30am - 11:00am

Break

11:00am - 12:00pm

OSHA Re-Visited

12:00pm - 1:15pm

Lunch

1:15pm - 1:30pm

TPMAA Drawing & General Discussion

1:30pm - 3:00pm

Diabetic Shoe Dispensing... To Do or Not to Do (How to establish and maintain a diabetic shoe program)

3:00pm - 3:30pm

Break

3:30pm - 5:00pm
