Directors at Large may serve concurrently as Regional Directors. The term of office of Directors at Large commences at the conclusion of the Annual Meeting. The procedure for filling a vacancy is described in Section 4 of this Article.

At each annual meeting of the Association, the members from each Region whose Regional Director or Directors’ term expires that year shall caucus separately for the purpose of electing the Regional Director or Directors. Each caucus shall elect a Chairman to preside over the election, and the caucus shall proceed to elect its Director(s). The election in each caucus shall be conducted in a manner consistent with the procedure provided for elections under Section 2 of this Article.
The term of office for a Regional Director is two (2) years. The term of office of a Regional Director from odd-numbered Regions shall expire in odd numbered years, and the term of office of a Regional Director from even-numbered Regions shall expire in even-numbered years, except that in any Region having more than one Regional Director, the Board of Directors may provide for staggered terms of the Regional Directors from that Region. Section 2. To qualify as a component county Podiatric Medical Society, said county Podiatric Medical Society shall apply officially to the Texas Podiatric Medical Association for such designation. Section 3. Component County Podiatric Medical Societies shall at all times be governed by and must comply with the Constitution, Bylaws and Code of Ethics of the Texas Podiatric Medical Association and the American Podiatric Medical Association. Societies not so complying shall be subject to revocation of their official authorization and designation from the Board of Directors.
Section 4. Membership in a component County Podiatric Medical Society is contingent upon membership in TPMA.

Section 5. Meetings of component County Podiatric Medical Societies may be held at any time and place determined by the membership. Combined meetings, on a Regional or area basis, of component County Podiatric Medical Societies may also be held, provided such meetings are officially designated and termed as joint meetings.

ARTICLE Xlle CODE OF ETHICS

These principles are to aid podiatric physicians in maintaining a high level of ethical conduct. They are standards by which a podiatric physician may determine the propriety of his/her conduct and his/her relationship with patients, colleagues, members of allied health professions, and the public. A podiatric physician who violates any provisions of this Code of Ethics is guilty of unethical conduct. It is unethical for a practitioner who is aware of improper, unethical, corrupt, or dishonest practices by another practitioner not to report said practices to the appropriate committee.

Section 1. General Requirements and Standards.

A. The health and safety of his/her patients shall be the first consideration of the podiatric physician.

B. The principal objective of podiatric medicine is to render service to humanity.

C. A podiatric physician should strive continually to improve his/her medical knowledge and skills and make them available to his/her patients and colleagues.

D. He/she should administer to his/her patients to the best of his/her ability in a professional manner and seek consultation upon request in difficult cases or whenever the quality of podiatric care would be enhanced.

E. Secrets and personal information entrusted to him/her shall be held inviolate unless disclosure is necessary to protect the welfare of the individual or the community.

F. A podiatric physician should be temperate in all things in recognition that his/her knowledge and techniques are essential to public health and welfare and even to human life.

G. He/she should neither tender nor receive a commission for referral of patients or engage in fee splitting.

H. He/she has the obligation of prescribing and supervising the work of all auxiliary personnel in the interest of rendering the best service to the patient.

Section 2. Identification.

A podiatric physician shall observe the requirements specified in this section in identifying himself/herself professionally. The identification of a podiatric physician must comply with the Healing Arts Identification Act and rules of the Texas Department of Licensing and Regulation.

Section 3. Methods of Identification.

A. General. The purpose of any form of advertising is to inform the public of the availability of competent foot care. The decision by a podiatric physician to employ means of advertising the availability of his or her services is a business decision to be made solely by the individual podiatric physician or podiatry group.
No podiatric physician or podiatry group should, however, employ means of advertising that are false or
tends to mislead the public. An advertisement is false or misleading, and an ethical violation, if it:

1. Contains a material misrepresentation of fact or omits a fact necessary to make the statement, considered
   as a whole, not materially misleading;

2. Contains a statement of opinion as to the quality of podiatric services;

3. Contains a representation or implication regarding the quality of podiatric services which is not
   susceptible to reasonable verification by the public;

4. Contains predictions of future satisfaction or success of any podiatric service;

5. Contains statistical data which is not susceptible to reasonable verification by the public;

6. Contains other information based on past performance which is not susceptible to reasonable verification
   by the public;

7. Contains a testimonial about or endorsement of a podiatric physician;

8. Is intended or is likely to create an unjustified expectation about results the podiatric physician can
   achieve;

9. Fails to make a truthful disclosure of the source of authorship of the communication.

Section 4. Relationship with Other Practitioners.

A. Referrals.
   A podiatric physician may contact other practitioners and notify them of the opening of an office and
   may solicit their cooperation in referring patients to him/her. He/she may also send written expressions
   of gratitude to persons referring patient to him/her, but he/she should not tender or receive a
   commission for referral of patients.

B. Fee Splitting.
   A podiatric physician shall not engage in fee splitting. However, a podiatric physician may pay an
   assistant’s fee according to the established percentage or rate prevailing in the community.

C. Acquiring Another’s Practice.
   If a podiatric physician acquires the practice of another practitioner, he/she may refer to the name of
   the other practitioner in identifying himself/herself and his/her acquired practice, but only for a period
   not to exceed one year from the date he/she acquired the practice. The acquiring podiatric physician
   shall also use his/her own name in identifying the practice acquired. The other provisions of Section 2
   and 3 of this Code apply also to the use of the other practitioner’s name in identifying the practice
   acquired.

D. Inducement.
   A podiatric physician should not induce another colleague’s patients. It is unethical for any podiatric
   physician who is knowingly seeing a patient for a second surgical opinion to manipulate or coerce that
   patient into allowing him/her to perform surgery. Furthermore, all reasonable efforts should be made to
   return the patient to the first practitioner for performance of the surgery if the second practitioner feels
the surgery is warranted. In the event the patient is adamant about having the second opinion podiatric physician perform the surgery, then the second opinion podiatric physician should recommend that a third opinion be sought prior to accepting the case. It would be prudent and courteous then for the second opinion podiatric physician to notify the primary podiatric physician (following HIPPA guidelines) of the patient’s wishes and subsequent actions.

E. Criticism.

A podiatric physician should not criticize or belittle his/her fellow practitioners.

F. Support of Code and Law.

A podiatric physician shall not aid an unethical practitioner or engage in any subterfuge with any person, business, or organization. He/she shall expose any illegal, unethical or dishonest conduct of other practitioners, and cooperate with those invested with the responsibility of enforcement of the law and this Code of Ethics.

Section 5. Informing Patients of Fees.

A podiatric physician or a member of his/her staff shall inform his/her patients as to the fee to be charged for services before the services are performed, regardless of whether the fees are charged on a cash basis, on the basis of a separate charge for each service, or a combination of these two methods, or on some other basis. If an exact fee for a particular service, as in extended care cases, cannot be cited to a patient, a fair and reasonable estimate of the basis on which it will be determined shall be given the patient.

Section 6. Identity of the Surgeon.

A person under a podiatric physician’s care or treatment on whom podiatric surgery is to be performed in connection with such care or treatment shall be informed by the podiatric physician of the identity of the surgeon before the surgery is performed.

Section 7. Commercial and Business Connections.

A. Fitting and Prescribing Shoes.

A podiatric physician may prescribe shoes to his/her patients in conjunction with a comprehensive podiatric medical treatment plan.

B. Office Locations. A podiatric physician shall not have his/her office in or connected with any business, activity or location that brings discredit to the profession.

Section 8. Unlawful and Immoral Acts.

Any podiatric physician who commits a crime of the grade of felony or involving moral turpitude, including any grade of theft or related offense, or criminal fraud or misrepresentation, or who commits any violation of the law pertaining to narcotics and dangerous drugs, is guilty of violating this Code of Ethics.

Section 9. Organizational Activities.

A. Clubs and Organizations. Podiatric physicians are encouraged to join and actively participate in professional, religious, and service organizations and social clubs.
B. Public Service Programs. Podiatric physicians may participate in public service programs for foot health education.

ARTICLE XIII GRIEVANCE AND DISCIPLINE

Section 1. Compliance with Rules Required. A member of this Association shall adhere strictly to the Constitution and Bylaws of the Association, including specifically the Code of Ethics (Article XII of this Bylaws), and the legal requirements governing the practice of podiatric medicine. Any member against whom charges are filed with the Association for a violation of this Section has the right of hearing as provided in this Article.

Section 2. Violation of the Law. If a member is charged with a violation of any State or Federal law or regulation governing the practice of podiatric medicine, the Board of Directors shall refer the information to the proper governmental authorities. However, this does not in any way limit or restrict the taking of any action authorized under the Constitution and Bylaws of this Association for the violation of the Constitution or Bylaws.

Section 3. Association Action on Violation of Constitution or Bylaws.

A. Filing Complaints.
Anyone desiring to file a complaint with the Association against a member of the Association for a violation of the Constitution or Bylaws of the Association shall submit the particulars of the complaint in writing to the Regional Director for the Region where the complaint originated and to the Peer Review Committee Chairman, with a copy to the Executive Director of the Association.

B. Investigation and Hearing.
The Peer Review Committee Chairman shall assign the complaint for investigation and resolution either to a member of the Peer Review Committee or the full Peer Review Committee, depending on the nature of the complaint. When an investigation is initiated, the person or body conducting the investigation shall promptly notify the accused member of the nature of the charges and of his/her rights under these Bylaws. If the accused member so requests, he/she is entitled to a hearing on the charges before the person or body conducting the investigation. He/she is entitled to be represented by counsel of his/her choice throughout the period of the proceedings under this Article. After an investigation is completed, the person or body conducting the investigation may do any one of the following: May take no further action if the matter has been satisfactorily resolved; may censure or reprimand the member; or may forward the matter to the Board of Directors for further consideration and action. In any event, the person or body conducting the investigation shall report its findings, actions, and recommendation in writing to the accused member and to the Board of Directors. The accused member may appeal to the Board of Directors from the findings, actions or recommendations of the person or body conducting the investigation.

C. Action by the Board.
If the person or body conducting the investigation recommends further consideration and actions be taken by the Board of Directors, or if the accused member appeals to the Board, the Board shall proceed to act on the matter as hereafter provided. If he/she so requests, the accused member shall be given the option to present argument on the findings, actions and recommendations being considered by the Board, before the Board acts. The Board shall give any other interested person the opportunity to appear before the Board and be heard with the accused member. The Board shall set the time and place for the arguments and may place reasonable restrictions on the duration and scope of the arguments. If the Board of Directors, after having complied with the foregoing procedures as applicable, finds that all or part of the charges have been sustained, it has the authority to take one or more of the following actions with respect to the accused member:
1. Censure or reprimand him/her;
2. Place him/her on probation for a period of up to one year;
3. Suspend him/her from the Association for a time specified by the Board; or
4. Recommend to the membership that he/she be expelled.

The action of suspending or recommending the expulsion of the member may be taken only if approved by a vote of at least two-thirds of the Board of Directors. Any other action authorized may be taken if approved by a vote of at least a majority of the Board of Directors.

D. Membership Action.

1. Appeals to Membership. Any member against whom disciplinary action is taken or affirmed by the Board of Directors as authorized in this Article may appeal the action to the membership at the first regular annual meeting of the membership immediately following the action of the Board and not thereafter. If a member so appeals, the Board of Directors shall present their findings and the action taken to the membership at the annual meeting. The member, and any other interested person, shall be given the opportunity to appear and be heard by the membership.

2. Recommendation of Expulsion. If the Board of Directors recommends the expulsion of a member, the Board shall present its findings and recommendations to the membership before action by the membership is taken, even though the member has not appealed the Board’s action. The accused member and any other interested person shall be given the opportunity to appear and be heard.

3. Votes by Membership. The membership at the regular annual meeting shall vote on whether or not to sustain the action taken by the Board of Directors against any accused member whose case is presented to the membership in the manner provided in this Subsection D. If the vote is on any action of the Board of Directors other than a recommendation of expulsion, the decision shall be based on a majority vote of those present and voting. If the vote is on whether to expel a member on the basis of a recommendation to that effect from the Board of Directors, expulsion may be assessed only upon approval of at least two-thirds of the members present and voting. If the membership does not approve the disciplinary action taken by the Board of Directors and does not approve the expulsion of a member when recommended by the Board of Directors, the membership may approve, upon a vote of a majority of those present and voting, any other punishment authorized to be assessed by the Board of Directors under paragraphs numbered (1), (2), and (3) in Subsection C of this section.

E. Reinstatement.

1. Suspension. Any member suspended from membership may, upon request to the Board of Directors, be reinstated after the expiration of the suspension period or after one year following the date on which the Board of Directors acts to suspend him/her, whichever first occurs. The actions to reinstate a member must be approved by a vote of at least two-thirds of the members of the Board of Directors.

2. Expulsion. Any member expelled from the Association may apply for membership after the expiration of two years from the date of his expulsion on the same terms and in like manner as an applicant for provisional membership, except that his/her application must be approved by a vote of at least two-thirds of the members of the Board of Directors before he/she may become a provisional member.

F. Disqualification of Membership in Proceedings. Any member charged with a violation of the Constitution or Bylaws of this Association shall not participate in any of the deliberations or votes of the Board or the membership on his/her case. However, he/she shall have all the other rights of an accused member provided for in these Bylaws.
Section 4. Additional Penalties. In addition to any other penalties specified in these Bylaws, any member who is expelled from the Association or who is under probation or suspension may not represent the Texas Podiatric Medical Association or affiliated organizations in any capacity or in any hospital, clinics, nursing homes, or similar establishments, or hold office of any nature, or have a telephone listing stating membership in the Texas Podiatric Medical Association or affiliated organizations. Any grade of theft or related offense, or criminal fraud or misrepresentation, or who commits any violation of the law pertaining to narcotics and dangerous drugs, is guilty of violating this Code of Ethics.
